Why Choose AAI?

Aesthetic Advancements Institute is comprised of experienced, accomplished aesthetic clinicians, dedicated to comprehensive, quality education and hands-on instruction for medical providers. Our goal is to equip practitioners with essential principles and techniques necessary to provide superior outcomes in nonsurgical aesthetic services.

Small Group Format

Our 5:1 student/teacher ratio allows for individualized hands-on instruction

Industry Leaders

All AAI instructors are expert injectors and leaders in the industry

Facial Anatomy Lab

All participants receive access to our exclusive online Facial Anatomy Lab 101

Earn CME Credits

AAI's courses offer a minimum of 8 Category 1 CME/CE credits upon completion

Up-to-Date Info

All courses include the most up to date information on products, techniques, & trends

Post-Course Support

Our clinical response team is available to help answer any post-training questions.

Customized Training Options

Don't see specifically what you're looking for? Ask about our customized training opportunities. From hands-on coaching to individual topics, we would love to help meet your educational needs!

Please note, not all customized trainings will be eligible for CME/CE credits.

Hands-On Training Courses

Experience levels and licensure requirements vary by course. Please check with your state licensing board for information on what is required for your specific license.

Requirements

Any medical/nursing providers who is legally permitted to perform these procedures in their state of licensure may attend an AAI training.

Non-Independent Providers

Each non-independent provider taking an AAI hands-on course must have an authorizing physician sign off on them in order to be able to actively participate in the hands-on portion of the course. This includes RNs, PAs, and in some cases NPs.

CME COURSES

Continuing Medical Education

Each Aesthetic Advancements course begins with a lecture in the morning, followed by hands-on instruction in the afternoon. Participants receive 8.5 CME/CE credits upon completion.

Neurotoxins/Dermal Fillers

One Day Training

Sclerotherapy

One Day Training

Aesthetic Lasers

One Day Training

Each course provides Category 1 CME/CE credits upon completion. Accreditation provided by Advancing Knowledge in Healthcare, Inc. (AKH). View accreditation information online:

Please note, the **injectable products are NOT included in the price of tuition. Products must be ordered directly from the manufacturer. Download our product ordering guide [here](#).*

Frequently Asked Questions

WHO CAN REGISTER FOR AN AAI TRAINING?

Registration is open to any licensed medical professional who is legally permitted to perform these specific procedures in his/her state of licensure. Typically, this is limited to RN, NP, PA, MD or those with similar degrees. Contact your state licensing board regarding your state's legalities.

WHAT IS REQUIRED IN ORDER TO ATTEND?

It is the responsibility of each participant to check with their individual state licensing board regarding any requirements for injecting neurotoxins and dermal fillers both in practice and for training purposes under their specific license. AAI does require that each person sign a waiver attesting that they have verified these requirements with their state board.

ARE THESE "CERTIFICATION" COURSES?

Traditional "certification" for neurotoxins and dermal fillers injections actually does not exist, meaning there is no national exam, credits to keep up with, governing body, etc. However, in many cases, you are required to show proof of training to obtain malpractice coverage. Our trainings do provide 8.5 Category 1 CME credits and a certificate of completion.

WHERE DO I PURCHASE PRODUCTS FOR THE TRAINING?

Products brought to AAI's trainings must be FDA approved and manufactured in the US. Use of product brought from outside the US is not permitted, and products should be purchased directly from the manufacturers. Download our product ordering guide for additional instructions.

HOW DOES THE REGISTRATION PROCESS WORK?

Upon registration, your submission will be processed and your medical/nursing license will be verified. You will then receive a notification of acceptance within 3 business days. Once the course has reached the minimum required number of registrants, you will then receive your official confirmation with location details, model arrival time and full list of what to bring to the training. You can also [download our course instructions](#) for more info.

Aesthetic Advancements Institute (AAI) was founded in 2002 after many requests from colleagues for Jill Jones, RN, CPSN, CANS, to share her expertise in the field non-surgical aesthetics. Since our inception, AAI has expanded to include additional expert clinical instructors from all across the US. All of AAI's aesthetic instructional courses were authored and copyrighted by AAI President & CEO, Jill K. Jones, RN, CPSN, CANS.
