
Sclerotherapy: Cosmetic Telangiectasias of the Lower Extremities

Activity Overview

This course will teach the principles and techniques that the clinician will need for successful cosmetic sclerotherapy treatments.

Target Audience

This activity has been designed to meet the educational needs of physicians, dentists, physician assistants, nurse practitioners and registered nurses involved in the care of patients undergoing medical aesthetic procedures.

Learning Objectives

Upon completion of the educational activity, participants should be able to:

- Identify the primary anatomy of the lower extremity venous system
 - Describe proper evaluation and assessment of treatment options for cosmetic telangiectasia
 - Review patient education, including pre- and post- procedure instructions and healthy leg principles
 - Explain sclerosants and their appropriate use
 - List potential complications associated with injection sclerotherapy
 - Demonstrate effective injection techniques
 - Describe components of a successful sclerotherapy practice
-

Criteria for Success

Statements of credit will be awarded based on the participant's attendance and submission of the activity evaluation form. A statement of credit will be available upon completion of an online evaluation/claimed credit form at <https://akhcme.com/akhcme/pages/aa>. You must participate in the entire activity to receive credit. If you have questions about this CE activity, please contact AKH Inc. at

tbrignoni@akhcme.com.
